

SignWriting OneD — regeneration report

Comparison of the upstream Sutton SignWriting OneD font vs the font regenerated from font-db's cubic-Bezier SVG sources, with and without our ellipse-replacement optimization.

File size

variant	size		Δ
original (upstream)	8,206,192 bytes	8013.9 KB	
new (no optimisation)	7,537,524 bytes	7360.9 KB	-8.1% vs original
new (ellipse + rotation dedup)	5,309,584 bytes	5185.1 KB	-35.3% vs original

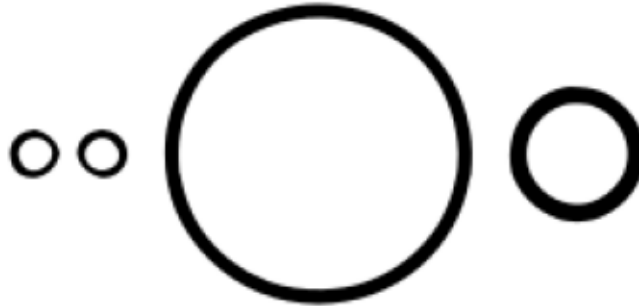

Glyph count

variant	glyphs
original (upstream OneD)	38,316 mapped codepoints
new (no optimisations)	38,316 mapped codepoints
new (ellipse + rotation dedup)	38,316 mapped codepoints

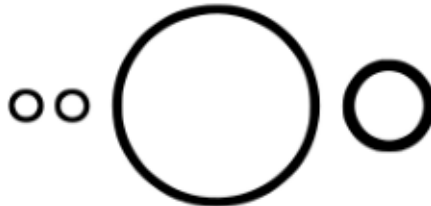

Ellipse optimization — circular glyphs

hand-traced cubic circles replaced by 4-segment Bezier ellipses

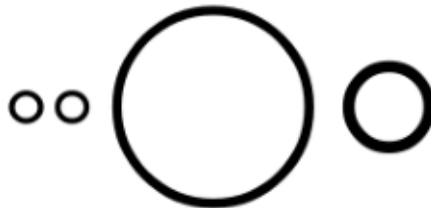

original (upstream OneD)

new (no optimisations)

new (ellipse + rotation dedup)

Rotation dedup — cardinal siblings of S10000

/4/6/8/a/c/e are composite glyphs referencing rot 0 + a transform; diagonals (1,3,5,7,9,b,d,f) keep their hand-redrawn out

original (upstream OneD)

new (no optimisations)

new (ellipse + rotation dedup)
